ScienceofSpeed Core-Exchange Program

ScienceofSpeed offers a free core-exchange program for products that use factory cores for modification. This program allows our customers to have the product on hand for installation, eliminating down time of their vehicle

Customers are charged a core charge at the time of the order. Once the product is returned (see details below), customers are issued a credit memo and a refund generally in 3-5 business days. Refunds will be made by way of the original payment method. If not possible, the refund will be made by check in US funds.

Please note: In order for us to offer this program, we must have these cores returned to ScienceofSpeed within 30 days from the date of delivery. If a core is not returned within 30 days from the date of delivery, ScienceofSpeed locates a replacement core to use with this program.

Core charges can not be refunded after 30 days from the date of delivery of the order.

Refer to instructions included with product for product-specific core return instructions.

Instructions for returning your product:

1. Return your core to this address:

ScienceofSpeed
1115 W Fairmont Dr
Tempe, AZ 85282
tel: 480-894-6277

2. The core must be returned via a traceable carrier (UPS, FEDEX). The core must be properly packaged. The package must have your name placed on the outside and inside of the box. We do not recommend using the original box if it has been damaged. Products returned damaged will not be eligible for a refund.
